

COMPATIBILITY

E-BIKE VISION BATTERY, COMPATIBLE TO PANASONIC* 36 V DELUXE DRIVE SYSTEM

Does the E-Bike Vision Battery fit your electric bike?

A product number is printed on your original battery, which you can compare here. If the product number is listed, the E-Bike Vision Battery is compatible with your electric bike. We kindly also request that you read the information about the mechanical requirements in the product description.

For the usage of the E-Bike Vision Battery, compatible to the Panasonic 36V drive system, the customer needs the E-Bike Vision charger for 36V batteries with 4A or the E-Bike Vision fast charger for 36V batteries with 7A charging current!

Furthermore, the batteries, compatible with the Panasonic drive with 36V, are suitable for drives of the model years 2012 to 2014. Compatible for example for the Flyer Deluxe models, for various KTM and Kettler models from the model years 2012, 2013 and 2014.

These batteries are NOT compatible with Panasonic Next Generation drives.
